INCLUDED COMPONENTS

Fairport Mini Coaxial Shower Valve & Flexible Kit SVK51

INSTALLATION DETAILS

PRODUCT DETAILS

Fits directly to a solid wall and rises to the ceiling.
 Can be fitted to an existing tiled surface.
 Ideally suited to low pressure installations.
 Both hot and cold water supplies are fed, separately, through the vertical riser. The cold water is fed within the riser's outer tube, preventing the riser from getting hot.
 Sequential thermostatic showers are single control and only allow adjustment of temperature, not flow.
 Thermostatic showers maintain a constant water temperature to within 1° regardless of the demand on the water supply.
 All Heritage showers are supplied with filters, check valves and optional flow restrictors to ensure efficient operation.
 Safety features include pre set maximum temperature of 43° and instant shut down if water supply fails.

Includes an adjustable showerhead bracket, hose and a single mode handset.

Operating pressure	0.1 - 10 bar
Minimum recommended operating pressure with handset	0.1 bar
Shower body dimensions	119 x 105 x 54mm

	0.1	0.2	0.3	0.4	0.5	1	2	3	4	5
SVK51	3.2	5.9	7.3	8.6	9.8	14.2	19.8	24.2	28	31.3

Flow is measured in litres per minute.
