LOOK N° 1

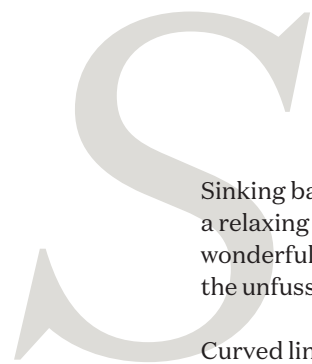

Pure and simple

Where less is most definitely more, this blissed-out bathroom is a vision of practicality, order, and calm.

SUITE VARIETY

Choose a look and select products from across our carefully curated range.

Sinking back into a beautiful bath for a relaxing soak after a stressful day is wonderful. This spa style bathroom hits all the unfussy and comforting style notes.

Curved lines and rounded shapes add a feeling of sensuality and welcome relaxation. The sanitaryware is kept simple, as much to do with aesthetics as it is with utility. Our freestanding Pomeroy bath and Stamford toilet are free of anything unnecessary, making them beautiful to look at and easy to clean.

Stamford toilet

Our Lynton range has been thoughtfully designed to store your bathroom essentials.

Lynton wall hung
vanity unit 800mm
→ Page 68

PURE AND SIMPLE

Create *the look*

Circular LED-lit mirrors, glass accessories and Japanese influences add modernity to this classic bathroom. A freestanding bath always makes a bathroom feel luxurious and as storage is a key factor, our Shaker-style Lynton vanity unit is perfect for hiding bottles and accessories. Hung from the wall, it creates the illusion of space. The walls are painted in soft cream and stone shades, given an edge with a shower and taps in chrome. All in all, it is a dreamy space to start and end the day.

THE RETREAT

Spa chic

10 product ideas for a serene bathing space

1. Choose a curved, freestanding bath that cocoons the body. See page 104.
2. Wall-mounted toilets (page 88) are great for small spaces and easy on the eye.
3. Comfort is paramount. If space allows, add a chair or stool.
4. Fixtures, fittings, and materials are an investment. Choose what you love.
5. Position a bath by a window facing towards the garden.
6. Consider real wood which is warm to walk on or underfloor heating for tiles.
7. Low level lighting creates a relaxed look. Dimmer lights are your go-to here.
8. Plants are guaranteed to lift the spirits. See page 42 for green inspiration.
9. Hide clutter in beautiful storage. See page 50 for ideas.
10. Lighting a candle is a quick and easy route to bathroom bliss.

THE ESSENTIALS

Mirror, mirror

Whether you're upgrading an existing bathroom or putting in a whole new suite, good lighting is essential – and by that we mean mirrors. Round or rectangular, our curved-edge mirrors will make a space feel bright and inviting. It's what you do with them that counts. A large mirror will trick the eye by enlarging a room.

Our range of LED mirrors are available in chrome, gold and black finishes and include features that prevent the mirror from misting when the hot shower is on. And with practicality in mind, they can also switch between cool or warm white light. For an extra stylish touch, our Amberley mirror is hung from a leather-look strap for that Scandinavian feel.

See page 156-161 for our full range.

LOOK N° 2

Country house

An English country house blend of old and new, this bathroom may be traditional, but it is far from old-fashioned.

LIGHT WORK

Our Newick mirror blends contemporary styling with integrated LED lighting.

Our Tilbury acrylic bath fits neatly into corners, allowing for the addition of a shower screen.

R

Rooms filled with ditsy floral wallpaper, beautiful furniture, and patterned textiles – there’s no denying that a Victorian-inspired look is desirable.

To keep the look up to date, it’s all in the mix. If it is stylish and practical, it goes. To keep the look up to date, invest in a hero or two, such as our Wilton vanity unit and Tilbury claw foot bath. With its clever design that fits neatly into corners, the bath allows for the addition of a shower screen. Perfect for busy families.

COUNTRY HOUSE

Create *the look*

How to bring a modern, unstuffy twist to a traditional look? Colour is key. Stick to vivid shades rather than faded. Combine old with new. The Newick mirror contrasts stylishly with the Tilbury bath. Wallpaper adds a lot to the room with patterns mixed gladly. For instance, a Berber rug works well with florals or stripes. Be brave and mix styles: painterly portraits that contrast with line drawings and vintage dinnerware. A wooden floor and tongue-and-groove panelling add to the country look.

THE PAINTED BATH

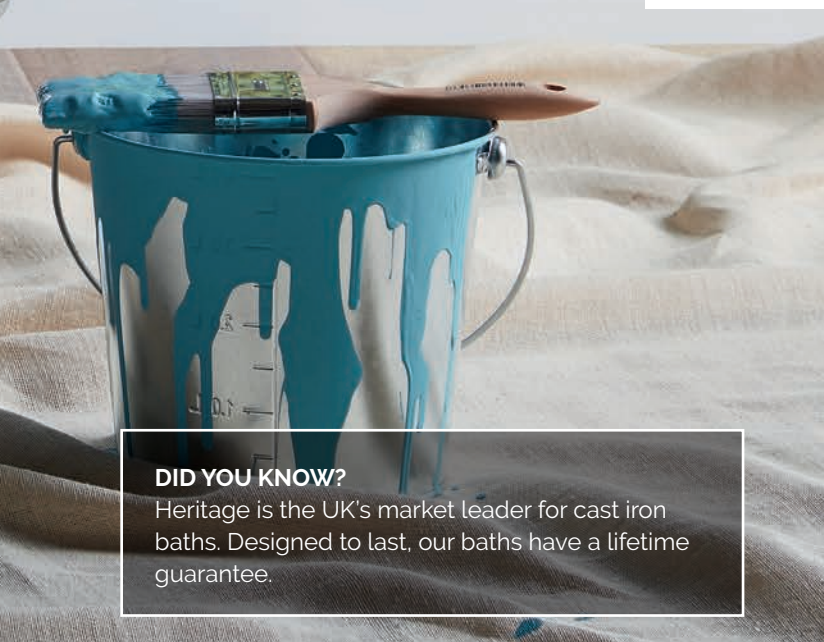

A splash of colour

Matching the desire for bespoke finishes, our cast iron baths can be painted to add colour to your space. Paired with striking ball and claw feet, this gives you the chance to create your own stylish individual look.

Arriving primed and ready to paint you can choose any shade for the exterior, and if you want to update the colour when you redecorate, or quick refresh, just add a quick lick of paint.

LOOK N° 3

Parisian chic

How to decorate like a Parisian: statement vanity unit, flattering colours, and a graphic tiled floor.

HERO PIECES

A beautiful bath and vanity unit are important investments for maximum comfort and practical use.

T

The French are known for a classic style with a modern twist. At its most glamorous, this mood is brought to life by mixing timeless pieces such as the Buckingham bath and Wilton vanity unit with graphic patterned tiles. The bolder the better. One thing a bathroom should always have is a mirror. Our LED Stanmer design provides bright light and creates the illusion of space. Our elegant Glastonbury taps and shower mixers and Cabot towel warmer add to the look. A plaster ceiling rose or frieze? Even the smallest of rooms can be grand.

One thing a bathroom should always have is a mirror. The Stanmer provides bright light and creates the illusion of space.

PARISIAN CHIC

Create *the look*

Voila! How to bring Gallic chic to a Victorian townhouse or a modern family home? Art Deco-influenced lighting, geometric-patterned floor tiles and ornate plaster cornicing all add to the transformation – made modern against a palette of navy, duck-egg blue and sage green. Graphic tiles bring the character. Our Stanmer rectangular mirror, hung alone or as a pair, will maximise on light. The Wilton vanity unit with its marble-effect top adds grandeur as well as useability – making the most of the space with everything tucked away.

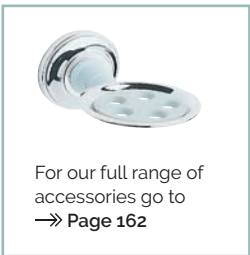

DID YOU KNOW?

Every cast iron bath is a blank canvas, finished with a paintable exterior so you're free to tailor the look however you please.

CAST IRON GUARANTEE

When choosing a bath, durability is key. Our cast iron baths feature white enamel interiors and are primed with undercoat, ready to paint.

THE TAPS

Keep it *classic*

In the bathroom, every material choice – from the taps and shower roses to vanity tops and floors – is an opportunity to express yourself, so consider the finished look and the effect you would like to achieve.

Here, brushed nickel is an alternative to chrome. It oozes elegance and adds just the right amount of interest to any scheme. Unlike the shininess of chrome, it softens anything from looking too minimal and sleek. Plus, the honed finish adds texture, so it is tactile too. Combined with marble and patterned tiles, the look reads warm and sophisticated.

Our comprehensive range of taps, as well as luxury showers and illuminated mirrors, come in a range of colours, finishes and styles from the smartness of chrome to burnished brass beauties as well. Brushed nickel is a practical material that is forever elegant, and importantly ages well.

LOOK N° 4

Colour splash

Highlight your bathroom with colour and pattern. The mood is bright, happy, and designed for family life.

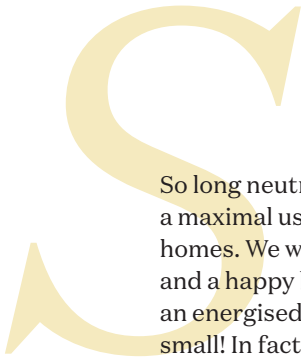

ANYTHING GOES

Our products are carefully designed to work together. Here, one of our practical fitted baths is paired with our Hatton basin and toilet.

*As an alternative to chrome,
our gold finish adds a touch
of warm, happy brightness.*

So long neutrals. There's a swing towards a maximal use of colour and pattern in our homes. We want to feel more optimistic, and a happy bright bathroom will inspire an energised state of mind. No space too small! In fact, a downstairs loo or ensuite is the perfect spot to go as vibrant as you like. Adding to the glow, many of our shower mixers and taps are available in a gold finish to suit your bathroom interior.

COLOUR SPLASH

Create *the look*

Play with colour and pattern to transform even the smallest space. This bathroom features a variety of prints such as floral textiles and beehive-patterned stripes. The yellow, white, and blue colour scheme brightens the room even further and is eye-catching against a simple bathroom suite. Practical, stylish, and incredibly good value, our Hatton collections are the perfect starting point and go with cute 1950s Modernist furniture as well as they do with brand new.

THE STORAGE

Pure vanity

We all need good bathroom storage and the vanity units at Heritage deliver on all counts, providing space to work and display our favourite bathroom things. There are corner units, wall hung units, statement vanities with curved sides and Shaker styles that take colour well. Without good storage, the room wouldn't operate as a practical bathroom. The bonus is when you put things in order, life will feel more organised and in control.

If space is tight, look for a compact vanity unit or furniture that fits into a corner. A curved profile such as our Wilton vanity unit will feel softer and less intrusive than a sharp corner. At Heritage we have a varied range of cabinets and vanity units that you can mix and match to suit your space and how you need it to perform. See page 60 to view the full range.

Before choosing storage there are things to consider.

1. How do you use the bathroom, what gadgets do you have and what do you want from your storage space?
2. Next on the list is layout. Once the position of the bath, shower and toilet are worked out, what space is there left for storage?
3. Start early with ideas for flooring. The material choice here will influence the rest of the decoration scheme and furniture finish.
4. Finally, if your house is from a particular period, think about what style suits it best.

THE DETAILS

Finishing touches

Never underestimate the power of a good handle. Based on the principle that good design improves our lives, the furniture collections at Heritage feature beautifully crafted details. It is the quality of these finishing touches that elevate the everyday.

Great design is rarely achieved alone. We are proud to collaborate with renowned makers of luxury cabinet handles Crofts & Assinder to provide the finishing touches to our high-level cabinet work. Ever since the company was founded in 1875, the Birmingham-based manufacturer have specialised in fittings that are both beautifully made and stylish.

It is this coming together of style, function and attention to detail that sets the luxury furniture range at Heritage apart.

LOOK N° 5

Plant power

Invite nature in with this naturally calming bathroom that oozes classic style and material warmth.

SAGE GREEN

This soothing colour works well with cool metallics, such as our Salcombe taps in Chrome.

N

Natural materials, a green palette and modern design combine to create this tactile bathroom that's in harmony with the outside. From the gleam of the bath to the tread of the timber floor, the decoration of this space is an act of self-care. Everything is good to touch. The clean lines of the Edvin bath and Stamford wall hung pan create the feeling of space.

PLANT POWER

Create *the look*

Natural colours and materials such as linen, rattan and wood make this feel-good room interesting, adding softness and warmth.

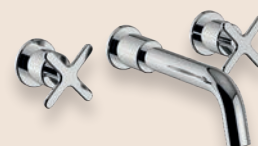

The Edvin bath and Stamford sanitaryware are deliberately modern and the Amberley mirror with its hanging strap adds class.

Plants add the finishing touch. They are not only lovely to look at but enhance the way you feel. Stress no more.

THE SHOWER

Wake up and refresh

There are two types of bathroom personalities: shower people or those who prefer to bath. For some, a long shower is the way to clear their heads in the morning, whereas for others, an evening bath is to time to unwind. When planning a new bathroom, it is wise to understand your preference and make that a priority in a scheme – and if space is tight, a shower over the bath combination can be a compromise.

When choosing a new shower, it is important to consider what type of water effect you would like, not only the finished look. An overhead shower gives a greater and more consistent distribution of water, whereas a handheld shower is ideal for a powerful and direct spray – also great for rinsing down your space.

Salcombe
concealed shower
→ Page 142

THE PLANTS

Pretty green

When it comes to adding impact, a houseplant is the simplest of decoration fixes. A humid-loving orchid next to a shower or a spider plant on a windowsill will change the atmosphere of a space – as well as lifting spirits.

A few tips:

- Tall plants are great for corners and can be a focal point in a room
- Palms will add a tropical vibe. Ferns will also thrive
- Small plants look good in groups of threes with varying heights
- Use glass bowls instead of pots so you can admire the roots too

THE COMPACT SPACE

Big ideas for tiny rooms

Small is beautiful but when space is tight, every inch counts. Designing any bathroom, particularly rooms on the smaller side, is a bit like doing a jigsaw puzzle. It is important to make all the pieces fit.

At Heritage, we have a really good selection of cabinets and vanity units that will do just this. Keeping a space looking gorgeous and fuss-free, our tall Lynton units won't take up any vital floor space, allowing products to be hidden away. ➤

Granley WC and basin
and pedestal
→ Page 91

Our Caversham freestanding cloakroom unit will neatly tuck into the tiniest of spots. Combine with our Newick circular mirror to add depth and create the illusion of more space. Surrounded by LED's, it will bounce light around the room.

With practicalities taken care of, there is scope to have fun with the decoration. As the space is small, material costs are fewer – making it easier to commit to a look that is more daring than you might do in the main family bathroom. Go to town with a particular colour or theme, with the reassurance that decoration surprises will always make you smile.

STYLISH STORAGE

Our Lynton and Caversham vanities lead the decor direction. The simple style works beautifully with muted colour combinations – and works in any size space. Remember: you can only keep a room tidy, if there's a place for everything to go!

THE CLOAKROOM

Colour schemes that work

A cloakroom doesn't have to be a neglected, cluttered space but can be a stylish room full of character. Yellow walls and gold accessories will make a space feel sunnier. Cream painted units and natural wood keeps any dazzle at bay. For a serene feel, dark blue cabinets and walls feel cosy. Red fabric wall lights contrast beautifully as well as adding a decorative touch. A two-tone option is a way to introduce colour without it taking over the entire room. For example, paint vanity doors and the lower half of the walls in a strong colour, paired with muted shades above.

Get the *know-how*

Expert advice and planning tips

A bathroom renovation doesn't need to be a daunting prospect if you follow a few basic steps. Beyond knowing your budget and the style of bathroom you would like, there is an order of works. Over the next few pages, we take you through the key points to consider, from water pressure and plumbing questions, choosing the right fittings, and making the most of available space.

Planning *the space*

Most of our showroom partners offer a design service that will bring your bathroom ideas to life. From help with design options, to installation and maintenance advice, our specialist retailers are the experts when it comes to bathroom design. But here are some things you might want to consider before planning your visit.

1. *Think about the function*
of your bathroom before you decide on style, bearing in mind where existing plumbing is for essentials such as the toilet, basin, shower or bath. This will all help with the room plan and what fits in the space.

2. *Identify storage needs*
and consider the type of furniture you want to incorporate. Add this to your floor plan, trying different options before committing to a final design. Our showroom partners have design tools to help or use our online 3D bathroom planner to map out your space.

3. *Consider water pressure and flow.*
This is fundamental before choosing a shower system. Our retail partners or Customer Service team can advise on what products will work best for your boiler type. Also, think about what plumbing is required for underfloor heating or radiators at this point too. If you would like a wall-hung toilet a special frame and plumbing will need to be fitted behind a stud/false wall.

4. *Lighting requirements*
need to be thought about at an early stage. What type of lighting would you like? Wall lights for tasks, low level lighting for mood? What wiring is required? This will need to be built into the walls. Also, consider electrics for shaver sockets and towel rails now.

5. *Choose materials carefully.*
Durability, aesthetics, and cost are all factors. Choose non-porous tiles that can cope with wet conditions and think about what colour grouting you would like. Darker colours will show less dirt. When painting walls, choose a water-resistant eggshell finish or bathroom paint that is suited to wet room environments.

6. *What style do you want?*
This will inform the products you choose and the finishes. It's a good idea to think ahead. Will it stand the test of time?

Room to *improve*

Whether you're upgrading an existing bathroom or putting in an ensuite, our expert tips will help make the most of any size space.

- ~ Installing a new suite is a chance to evaluate where everything is positioned. If pipework isn't in the right place, it can be moved. This can add time and cost to a project, but it can be practical if the original layout of the bathroom fundamentally doesn't work.
- ~ In large bathrooms, think about freestanding furniture. Chairs are a great way to soften hard surfaces of bathroom fittings and add comfort.
- ~ Ensuites are an extension of the bedroom. The door will often be open and viewable from the bed, so choose materials and a colour scheme that will match so both spaces coordinate well. A box room makes a great ensuite, which can be achieved with a connecting door.
- ~ For small spaces, wall-hung units are ideal as they save precious floor space. A freestanding vanity unit is a good choice for families as they offer masses of storage as well as countertop space.
- ~ For cloakrooms, choose only essentials. Make a sink a feature with a beautiful mirror above it and excellent storage below. It may seem counter-intuitive, but a large vanity unit will make a room feel bigger, and more usable. See page 60 for ideas.
- ~ If planning to extend upwards into an attic space, consider the layout of the bathroom and the positions above a drainage floor below.

FIND A SHOWROOM

Located across the UK, our specialist Heritage retailers provide expert guidance and help to bring bathroom ideas to life. Visit heritagebathrooms.com to find the Heritage retailer closest to you.

Draw it up

Using a sheet of A4 graph paper make a sketch of your bathroom's floor layout. Mark out any doors, windows, radiators, and existing plumbing. Don't forget to mark which way the door opens. By having a layout, it makes it easier for big plumbing decisions to be made, for instance, the toilet needs to be placed within easy access of the waste pipe and will dictate how everything else is arranged.

Pick a starting point and work clockwise, measuring the height of the room too, plus any other vertical distances so the whole room is mapped. Online planners will help give shape to ideas, which you can take to the planning stage, or draw by hand. Turn to page 182 for blank graph paper to get started.

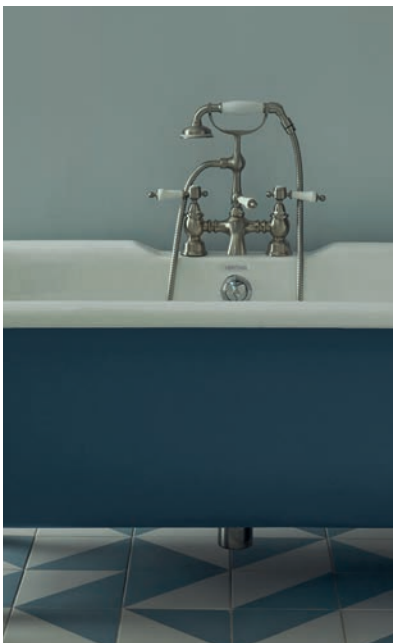

Product *focus*

There are many things to think about when selecting a product. Will it fit? What features do I need? Does it work with existing plumbing? Is it within budget? At Heritage, our products are designed to cover all scenarios and can be co-ordinated across ranges to get the look and price point desired. We break down what you need to know.

Taps

Your choice of basin will dictate your options for taps, with one, two or three tap hole versions available. Alternatively, opt for wall-mounted hardware instead. If you prefer taps to be wall-mounted, decide this early on as the correct plumbing will need to be installed before tiling or fitting can commence. Heritage baths are available with either two tap holes, or none. Here, you would use a bath shower mixer that sits beside your bath to fill it.

Basins

The choice with basins is between size and style. At Heritage, our basins range from compact or corner-shaped sinks that are good for small spaces to larger basins such as Dorchester that sit on top of a chrome frame. This creates the illusion of space. Our bestselling Granley range is a timeless design. For large spaces or family bathrooms, consider fitting two basins side by side, hotel style. This means there is plenty of space for everyone. Classic taps combined with contemporary sanitaryware gives an interesting effect.

Baths

With a bath you have to ask yourself what's important and what's realistic? Only by measuring a space can you get an accurate idea of what will work in a space, and where. Scaled down versions will work where space is tight. Material choice too plays a part too. Cast iron baths are luxurious and incredibly durable, whereas acrylic baths are highly polished, scratch and stain resistant and lighter than cast iron.

Showers

The performance of your shower will depend on your water system, so it's always best to check with your plumber or your showroom before selecting a shower. For the most flexibility, choose an overhead design with handheld shower. The handheld function is great for rinsing down the enclosure, too.

Furniture

At Heritage, our furniture makes the most of any available space – as well as keeping it tidy. Made to a high quality, our free-standing and wall-hung vanity and storage units are available in a range of colours and handle options.

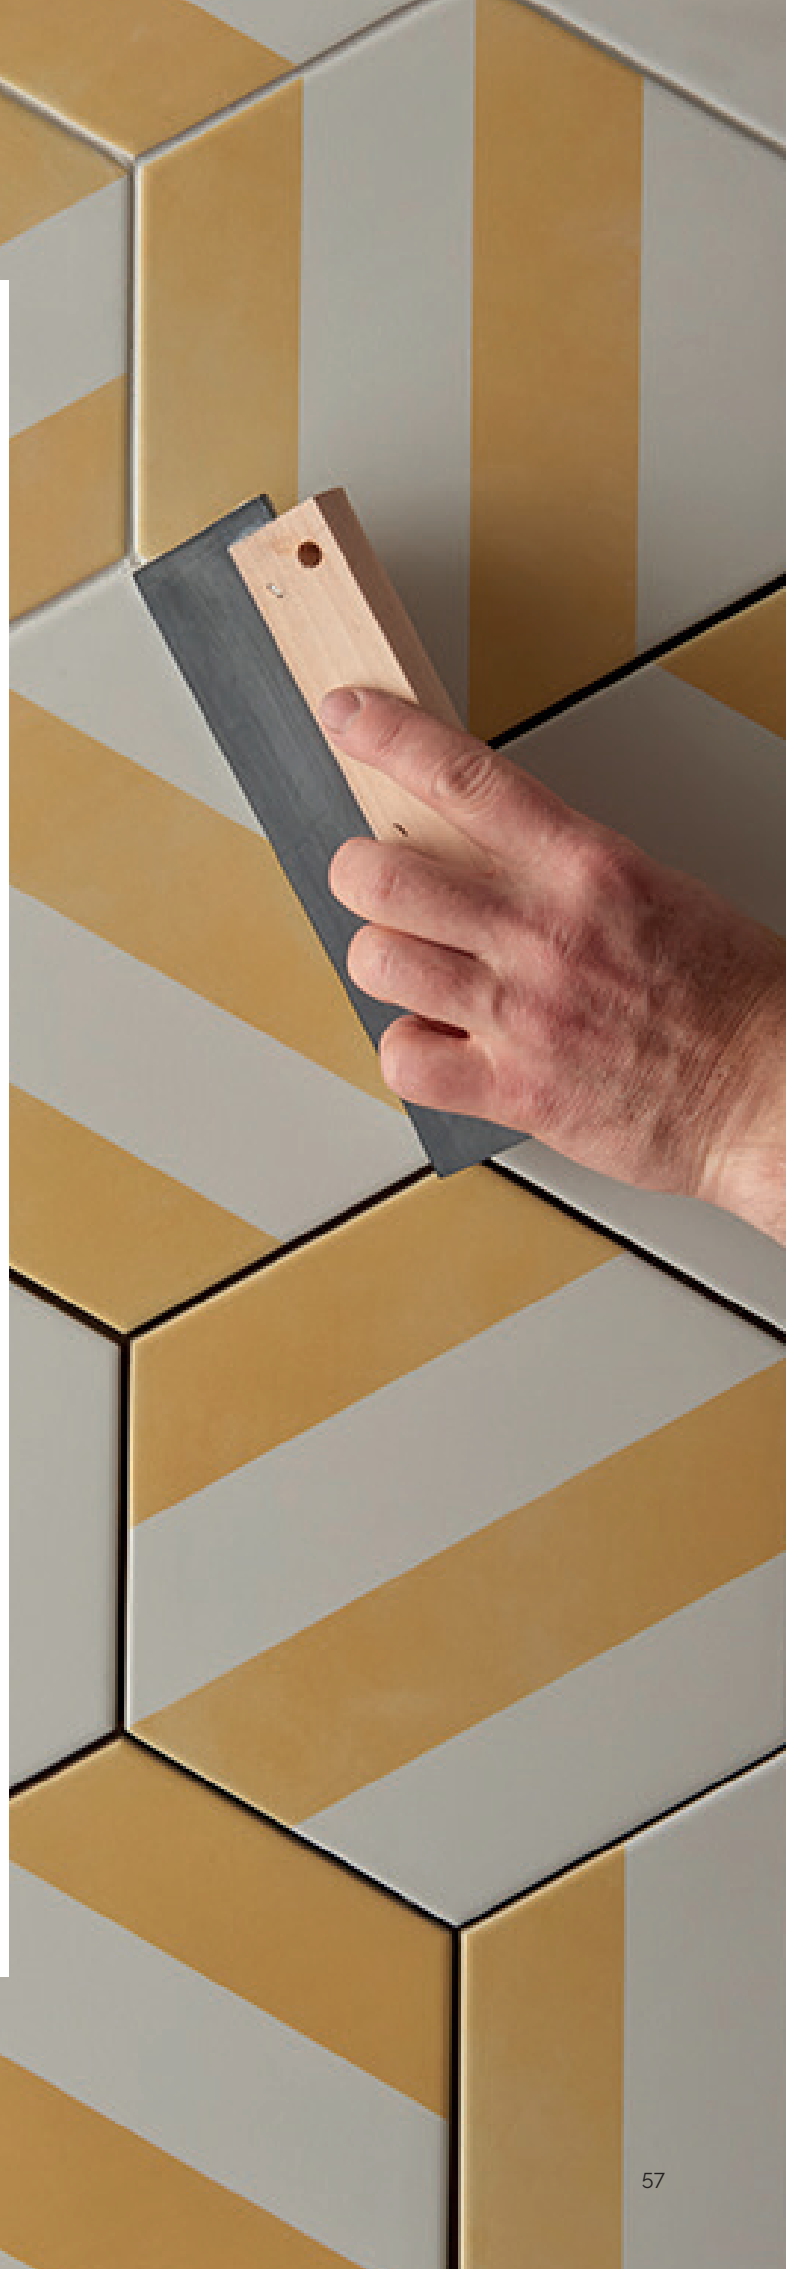

Need to Know...

Tile Style

Tiling a bathroom is a skilled job, requiring specific cutting tools and experience. Most tilers will start with the walls before moving on to the floor, beginning in the middle of the wall, working outwards. If you are project managing yourself, you'll need to be aware that the tiler can only start working once the 'first fix' has been done on the plumbing, the electrics have been installed and any plastering has been completed.

The fun part of tiling is choosing the material as tiles provide an opportunity to add colour, texture, and pattern into a space. The size of tile, the material, and how the tiles are laid all effect the finished bathroom look. Here are a few pointers to achieve various effects.

- ~ Mosaics can be stunning in both a classic and modern space. They add texture and offer a variety of ombre effects. Start with a darker tile at the bottom, working lighter at the top.
- ~ Large tiles on a large wall add to the feeling of space. Use these in a compact room and it will feel more luxurious.
- ~ If you continue using tiles that are used on the walls onto the floor as well, it will make a room feel seamless. By using an intense single colour, the look is dramatic.
- ~ Behind a washbasin, tile to head height rather than just a splashback. Metro tiles stacked vertically will give a modern feel.
- ~ A glazed handmade tile reflects light beautifully and will add a rustic touch.
- ~ Green is a popular colour in the bathroom. It adds an earthy colour whilst still feeling calm.
- ~ Classic square tiles installed in a grid pattern give a retro feel – the effect boosted by using a contrast-coloured grout.
- ~ Colour blocking is a simple way to be bold. Use one primary colour such as yellow with a complementary orange in different areas of the room.

Product *selection*

Our definitive guide to choosing the right fittings
and accessories to suit your space.

Furniture

Heritage bathroom furniture is designed with style and practicality in mind.

From the classic Caversham, to the timeless design of Wilton, or the elegantly modern Lynton, all of our ranges give you beautiful bathroom storage you can enjoy for years to come with a robust five year guarantee.

Sanitaryware

From timeless classics, Granley and Dorchester, alongside more modern options such as Stamford, or the elegant Hatton, explore the Heritage sanitaryware collection. We also offer beautifully crafted basins to fit our practical furniture pieces, and a Clinton pan to perfectly complement any storage solution.

Whichever you choose you can rest assured that all our sanitaryware will give you style and quality that lasts, that's why we offer a robust guarantee.

Basins

Suites include basin options suitable for all bathroom spaces. Choose by type or style and select from pedestals, furniture or a washstand to complete the look.

Standard

Suitable for most bathroom spaces.

Medium

Slightly smaller than a standard, these are suitable for main bathrooms or an ensuite where space may be at a premium.

Square

Choose traditional styling with an angular twist.

Cloakroom

As the name suggests, these compact options are designed to work in smaller spaces.

Basin - Options

Range	Standard	Medium	Square	Cloakroom	Baby	Corner
Dorchester	✓		✓	✓	✓	✓
Granley	✓	✓		✓	✓	
Hatton	✓					
Stamford	✓	✓				

Baby

A petite option for even the smallest cloakroom.

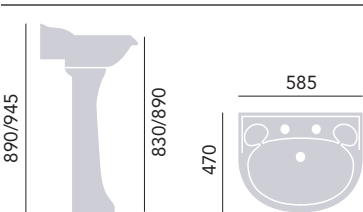

Corner

Make the most of awkward or angular spaces with a corner basin.

WCs

Just like our beautiful basin options, all of our suites include WC options. We also offer a Clinton back to wall pan to complement our furniture ranges.

High Level

Make a statement with a high level cistern and ornate chain pull. High level options also require a flush pack.

Low Level

A stylish traditional option with a separate pan and cistern connected by a flush pack.

Close Coupled

A popular option, close coupled keep the pan and cistern together.

WC - Options

Range	Wall hung	Back to wall	Close Coupled	Low Level	High Level
Clinton		✓			
Dorchester	✓		✓	✓	✓
Granley			✓	✓	✓
Hatton		✓	✓		
Stamford	✓	✓	✓		

Cistern Levers

Choose from a range of cistern levers, find them on page 95.

Toilet Seats

Our toilet seats are available in range of colours, including options to match our furniture finishes, see page 94.

Back to Wall

Ideal with furniture, a back to wall uses a concealed cistern.

Wall Hung

Create a simple, elegant look with a pan that uses a cistern hidden in the wall.

Baths

Discover the perfect bath to complement your personal style from one of the largest collections of freestanding baths available.

Manufactured to the highest standards, all our baths are built to superior specifications and come with a lifetime guarantee.

Cast Iron Baths

These beautiful baths are the perfect statement piece.

Our cast iron baths are built to superior specifications and will arrive primed and ready to paint. The inside is also immaculately finished – coated with two layers of grade AA white ripple enamel for a pristine finish.

Acrylic Baths

Our acrylic baths are durable, adaptable and stylish. With a lightweight but rigid construction they're hard-wearing but easy to manoeuvre.

Choose a freestanding acrylic in a range of shapes and styles, as well as options with a statement finishes like metallic effects, or marble.

Or, for more practical spaces like a family bathroom where a shower and bath is needed in a limited space, a fitted acrylic bath can be the perfect solution.

Taps & Showers

Our taps and showers are designed to sit beautifully in your bathroom.
With market leading guarantees choose from our six tap ranges.

Each with matching shower options, or opt for the indulgent Avenbury,
a standalone statement shower (page 122).

You can also choose from five on-trend finishes:

Chrome

A classic, elegant finish available on all our taps
and showers.

Vintage Gold

A gentle gold for an understated look.

Brushed Nickel

A soft brushed finish, perfect for
calming bathroom spaces.

Brushed Brass

A rich and opulent on trend finish.

Matt Black

The perfect option for a sleek look,
make a bold statement with a
matching black shower.

Caring for your products

CLEANING CAST IRON BATHS

DO'S

Do be careful not to drop anything in the bath as the enamel could chip.

DON'TS

Don't clean the outside with any chemicals that could remove the paint.

CLEANING ACRYLIC BATHS

DO'S

Do wipe over with a damp cloth regularly.

Do dry the area around the plughole.

Do take extra care with special finish baths.

DON'TS

Don't use abrasive chemicals as it may scratch the gloss finish.

CLEANING TAPS, SHOWERS AND WASHSTANDS

DO'S

If limescale needs to be removed, do use a solution of 50% water, 50% white vinegar.

On special finishes do use a silver polish and tarnish guard for additional protection.

DON'TS

Don't use corrosive and abrasive cleaning products.

Don't use bleach.

CLEANING TOILET SEATS

DO'S

Do clean regularly as build-up of deposits may cause damage.

DON'TS

Don't use corrosive cleaning products.

Don't use bleach.

CLEANING SANITARYWARE

DO'S

Do regularly wipe down with a soft damp cloth.

DON'TS

Don't use any abrasive cleaning agents or materials such as bleach or scouring pads.

FURNITURE CARE

DO'S

Do check the hinges and handles regularly to make sure they haven't become loose.

Wherever possible wipe down standing water immediately.

DON'TS

Don't use any abrasive cleaning products.

MIRROR CARE

DO'S

Do use a soft cloth and glass cleaner on the glass.

Do use a dry soft cloth to remove dust from the frame.

DON'TS

Don't clean the mirror surface with anything abrasive.

Don't use any cleaning products on the mirror surround.

HEATED TOWEL RAIL CARE

DO'S

Do dust regularly.

Do use a damp cloth.

DON'TS

Don't use abrasive or corrosive cleaning products as they may damage the paint finish.

ACCESSORIES CARE

DO'S

Do avoid prolonged contact with water and dry after use.

DON'TS

Don't use abrasive or corrosive cleaning products.

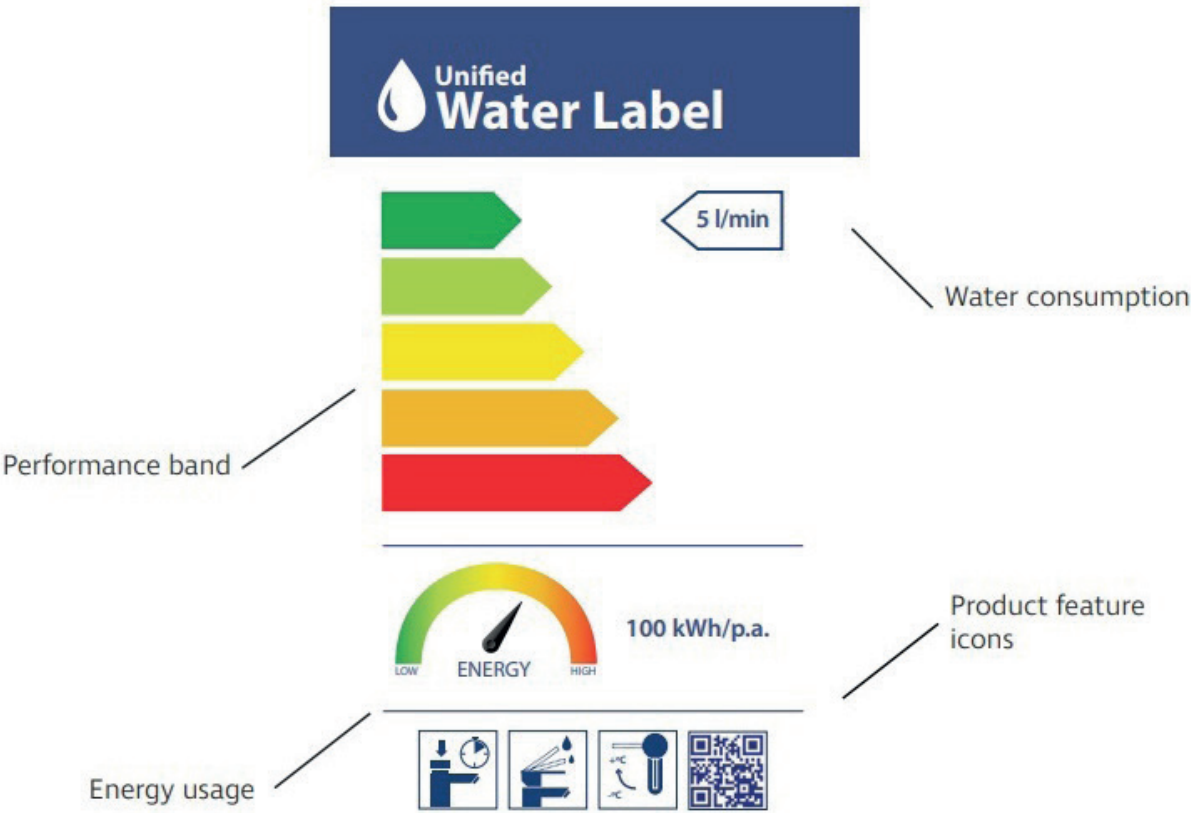

Explaining Water Efficiency

There are over 60 million people living in the UK, using on average 150 litres of water per day for washing, cooking and drinking. Improvements in lifestyle and new technologies within the domestic environment mean we use 55% more water than we did 25 years ago, with half of this being used within the bathroom environment.

As climate change takes a greater hold on the environment we understand it is essential for us all to use water wisely. At Heritage we appreciate how important it is to save water and that's why we have designed selected products to optimise water usage in the bathroom.

You can now tell how much water a product uses in normal domestic conditions by looking for the Water Label. A green indicator flag shows that a product uses the least amount of water whereas a red flag indicates that a product uses more water; however this gives you a greater flow from your taps and showers for a faster filling basin or bath and more invigorating shower.

You can find a complete explanation of the European Water Label and how it works at: www.europeanwaterlabel.eu

Taps & Showers Water Label guide

Litres per minute	6 Litres Max	8 Litres Max	10 Litres Max	13 Litres Max	Over 13 Litres

Baths Water Label guide

Capacity to overflow	155 Litres Max	170 Litres Max	185 Litres Max	200 Litres Max	Over 200 Litres

WCs Water Label guide

Average flushing volume	3.5 Litres Max	4.5 Litres Max	5.5 Litres Max	6.0 Litres Max	Over 6.0 Litres

All flow rates are given at 3.0bar water pressure

Useful Information

BATHS

Acrylic baths

Reflectivity of materials may vary, in some light conditions the white may look a little different.

Heritage bath panels are designed to go with Heritage baths, a 1700mm panel for a 1700mm bath etc. White plastic bath panels are a fixed height and when used in conjunction with one of our baths, allows the bath trap to be installed above the finished floor in most cases.

Cast iron baths

Cast iron baths are still made in the traditional way which includes a degree of surface ripple, dimples and minuscule black specks in the interior. This is all part of the character of a cast iron bath giving a feeling of uniqueness in your bathroom. The exterior of our cast iron baths come smooth and pre-primed ready to paint. This isn't the finished article though and may suffer minor wear and tear en route to you. It will be instantly restored when you paint it in your chosen colour.

BASINS, WCs & BIDETS

Each piece of sanitaryware is individually made which means dimensions given are always 'approximate' within standard industry tolerances. If precise measurements are required then you must measure the actual pieces when they are delivered and plan your bathroom around them.

Every effort is made to ensure our sanitaryware is straight and level, and our standards are significantly higher than those set out in the current British Standards. However, when used on furniture, for example, there will be situations where an inexact basin will meet a perfectly straight worktop and sealant will need to be applied to fill any inconsistencies, ensuring a stable fit and sealing the furniture from water ingress.

Due to manufacturing processes slight colour variation is possible in ceramic items.

This brochure supersedes all previous issues of the Heritage Collection with effect from the issue date shown until replaced by a new edition. Heritage holds intellectual property rights, including but not limited to unregistered design right, copyright, registered designs and patents in the United Kingdom, and other similar rights elsewhere to all the goods that are proprietary to us and their drawings, designs and specifications. Along with our stockists we will establish, prosecute and defend those rights. All rights reserved. No part of this work may be reproduced, utilised or stored in any form or by any means without written permission from Heritage Bathrooms. E&OE. Prices correct at time of print. At Heritage Bathrooms it is our policy to strive to continuously improve the quality of our goods, as a result our products will also be subject to changes in design, materials, components and finishes. All goods are subject to such variations in size, colour and finish and are within normally accepted manufacturing tolerances. Also, as products are subject to changes this may affect the qualification for various product approvals and so we will not be held responsible for any reliance placed on approval references within drawings, descriptive matter, price lists, catalogues, brochures, websites, and other promotional material unless it has been directly confirmed by us in writing at the time the products are ordered.

The lifetime guarantee on sanitaryware extends to the ceramic pieces only. The cistern fittings are guaranteed for 5 years. The inlets on our ceramic cisterns vary depending on the product. Please contact our customer service team for more information.

HERITAGE LOGO

The word Heritage is used as a hallmark to denote a genuine Heritage product.

TAPS & SHOWER VALVES

Heritage taps are designed to be compatible with Heritage sanitaryware and baths. A 1 tap hole basin mixer will be suitable for any 1 tap hole basin, the few exceptions to this rule will be highlighted in the directory section.

The majority of Heritage taps and shower valves have been engineered to operate on low pressure making them compatible with all UK plumbing systems. The minimum operating pressure for each tap and shower valve is stated in the directory for you to confirm compatibility with your installer.

Measuring tap spout projections

Spout projection measurements refer to the dimension from the centre of the body to the centre of the spout.

BRASSWARE FINISHES

Chrome is an extremely durable plated finish which is applied to a variety of fittings in a consistent manner and features a 10 year guarantee. Special finishes, such as Vintage Gold are more delicate so when applied to high use fittings such as taps and showers, or a plated finish we use on shower kits, hoses and accessories, feature a 3 year guarantee only.

Close inspection may show some colour variation which is normally acceptable given the relative distance between individual fittings when installed.

Trade Mark and Data Protection

Our trade mark HERITAGE is registered in the United Kingdom and throughout Europe. You will not use our trade mark, or any of the range or product names or images of our products without approval.

Heritage Bathrooms is a member of the Bathroom Manufacturer's Association www.bathroom-association.org. ®Registered trademark of Heritage Bathrooms. Part of Bristan Group Limited. A MASCO company. www.masco.com

European Water Label Scheme

Products within the Heritage range are accredited by the European Water Label Scheme therefore meeting industry standards for water efficiency. For a full list of accredited Heritage products and for more information please visit www.europeanwaterlabel.eu

Useful Information & Guarantees

FURNITURE

Our freestanding furniture is produced with a painted MDF.

WC seats and hinges must be regularly maintained and correctly cleaned using non-corrosive or abrasive cleaning products.

Worktops are supplied in varying lengths. Please measure and select carefully. Please also take care when cutting worktops; worktops are not made from solid wood and by cutting them you will expose the edge.

Wall mounted furniture in our range is not freestanding and is designed to be wall-mounted.

FURNITURE FINISHES

Our furniture is available in a choice of painted finishes. While we endeavour to ensure consistency, you may see some slight variation in the colour.

Our coloured finish furniture has the following Pantone references: Maritime Blue 2188U, Classic Green 5535U. Our RAL references are 7047 for Dove Grey, 7016 for Graphite and 9010 for Chantilly. Our NCS S reference for Midnight Blue is 8010-R90B.

Terms and conditions of sale

Heritage do not sell direct to the consumer and as such your terms and conditions of sale are with the retailer where you purchased our products. Heritage Bathrooms reserve the right to amend retail prices at any time. We recommend you discuss pricing with your chosen specialist supplier. All prices in this brochure are recommended retail prices and include VAT at 20%. In the event of a change to the VAT rate, prices will change accordingly.

HERITAGE BATHROOMS GUARANTEES

At Heritage Bathrooms, we want to make things as easy as possible for our customers. That's why we design products that are easy to fit and use, and that are quality tested to make sure they won't let you down.

It's also why we offer solid guarantees, effective from the date of purchase, so that in the unlikely event of something going wrong, you have the peace of mind that the problem will be sorted easily.

OUR GUARANTEES ARE AS FOLLOWS:

Sanitaryware

Lifetime† and 1 year labour*

Baths

Lifetime† and 1 year labour*

Furniture and Worktops

5 years and 1 year labour*
