LYNTON

# Simplicity and Sophistication

Embrace the clean, contemporary lines of the Lynton range to curate a space that invites relaxation and serenity. Available in freestanding or wall-hung vanity options to create a feeling of space, maximise your storage with an additional tall cabinet. Continue the aesthetic in the smallest room with Lynton cloakroom unit options. Pair with the contemporary classic design of our Salcombe or Dartmouth tap ranges in soft finishes. Add a freestanding bath to give the ultimate spa experience.

A beautiful bath and vanity unit are important investments for maximum comfort and practical use.

WILTON

# Grace & Sophistication

Pairing soft curved edge units with an undercounter basin, Wilton evokes the best in hotel bathrooms. Available in curved, left or right hand only curved and freestanding vanity units, Wilton can sit in smaller spaces or add grandeur and scale in a statement bathroom. Glastonbury curved brassware makes an elegant pairing with Wilton and our cast iron baths can be painted to match the unit perfectly. Creating your own, hotel standard, daily retreat.

# Get the know-how

## Expert advice and planning tips

A bathroom renovation doesn't need to be a daunting prospect if you follow a few basic steps. Beyond knowing your budget and the style of bathroom you would like, there is an order of works. Over the next few pages, we take you through the key points to consider, from choosing the right fittings to making the most of the available space

## Planning The Space

Most of our showroom partners offer a design service that will bring your bathroom ideas to life. From help with design options, to installation and maintenance advice, our specialist retailers are the experts when it comes to bathroom design. But here are some things you might want to consider before planning your visit

**Find A Showroom** ▶ Visit [heritagebathrooms.com](https://heritagebathrooms.com) to find the Heritage retailer closest to you.

### **Think about the function**

of your bathroom before you decide on style, bearing in mind where existing plumbing is for essentials such as the toilet, basin, shower or bath. This will all help with the room plan and what fits in the space.

### **Identify storage needs**

and consider the type of furniture you want to incorporate. Our showroom partners have design tools to help.

### **Consider water pressure and flow.**

This is fundamental before choosing a shower system. Our retail partners or Customer Service team can advise on what products will work best for your boiler type. Also, think about what plumbing is required for underfloor heating or radiators at this point too. If you would like a wall-hung toilet a special frame and plumbing will need to be fitted behind a stud/false wall.

### **Lighting requirements**

need to be thought about at an early stage. What type of lighting would you like? Wall lights for tasks, low level lighting for mood? What wiring is required? This will need to be built into the walls. Also, consider electrics for shaver sockets and towel rails now.

### **Choose materials carefully.**

Durability, aesthetics, and cost are all factors. Choose non-porous tiles that can cope with wet conditions and think about what colour grouting you would like. Darker colours will show less dirt. When painting walls, choose a water-resistant eggshell finish or bathroom paint that is suited to wet room environments.

### **What style do you want?**

This will inform the products you choose and the finishes. It's a good idea to think ahead. Will it stand the test of time?

# Product focus

There are many things to think about when selecting a product. Will it fit? What features do I need? Does it work with existing plumbing? Is it within budget? At Heritage, our products are designed to cover all scenarios and can be co-ordinated across ranges to get the look and price point desired. We break down what you need to know.

## Taps

Your choice of basin will dictate your options for taps, with one, two or three tap hole versions available. Alternatively, opt for wall-mounted hardware instead. If you prefer taps to be wall-mounted, decide this early on as the correct plumbing will need to be installed before tiling or fitting can commence. Heritage baths are available with either two tap holes, or none. Here, you would use a bath shower mixer that sits beside your bath to fill it.

## Basins

The choice with basins is between size and style. At Heritage, our basins range from compact or corner-shaped sinks that are good for small spaces to larger basins such as Dorchester that sit on top of a chrome frame. This creates the illusion of space. Our bestselling Granley range is a timeless design. For large spaces or family bathrooms, consider fitting two basins side by side, hotel style. This means there is plenty of space for everyone. Classic taps combined with contemporary sanitaryware give an interesting effect.

## Showers

The performance of your shower will depend on your water system, so it's always best to check with your plumber or your showroom before selecting a shower. For the most flexibility, choose an overhead design with handheld shower. The handheld function is great for rinsing down the enclosure, too.

## THE TAPS

# Make it personal

In the bathroom, every material choice from the taps and shower roses to vanity tops and floors is an opportunity to express yourself, so consider the finished look and the effect you would like to achieve.

Here, brushed nickel, brushed brass and matt black are a great alternative to chrome. It oozes elegance and adds just the right amount of interest to any scheme. Unlike the shininess of chrome, it softens anything from looking too minimal and sleek. Plus, the honed finish adds texture, so it is tactile too. Combined with marble and patterned tiles, the look reads warm and sophisticated.

Our comprehensive range of taps, as well as luxury showers and illuminated mirrors, come in a range of colours, finishes and styles from the smartness of chrome to burnished brass beauties and sophisticated matt black as well.

## THE BATHS

# Beautiful Baths

With a bath you have to ask yourself what's important and what's realistic? Only by measuring a space can you get an accurate idea of what will work in a space, and where. Scaled down versions will work where space is tight. Material choice too plays a part too. Cast iron baths are luxurious and incredibly durable, whereas acrylic baths are highly polished, scratch and stain resistant and lighter than cast iron.

### DID YOU KNOW?

Our acrylic fitted baths have solid skin technology which keeps your bath water warmer for longer.

Heritage is the UK's market leader for cast iron baths. Our cast iron baths feature white enamel interiors and are primed with undercoat, ready to paint.

Designed to last, our baths have a lifetime guarantee.

\* Lifetime means 25 years

Heritage is the UK's market leader for cast iron baths. Designed to last, our baths have a lifetime guarantee.

THE PAINTED BATH

# A splash of colour

Matching the desire for bespoke finishes, our cast iron baths can be painted to add colour to your space. Paired with striking ball and claw feet, this gives you the chance to create your own stylish individual look.

Arriving primed and ready to paint you can choose any shade for the exterior, and if you want to update the colour when you redecorate, just add a quick lick of paint.

THE COMPACT SPACE

# Big ideas for tiny rooms

Small is beautiful but when space is tight, every inch counts. Designing any bathroom, particularly rooms on the smaller side, is a bit like doing a jigsaw puzzle. It is important to make all the pieces fit.

At Heritage, we have a really good selection of cabinets and vanity units that will do just this. Keeping a space looking gorgeous and fuss-free, our tall Lynton units won't take up any vital floor space, allowing products to be hidden away. ▶

THE DETAILS

# Finishing touches

Never underestimate the power of a beautiful worktop or perfect accessories. Based on the principle that good design improves our lives, the furniture collections at Heritage feature beautifully crafted details. It is the quality of these finishing touches that elevate the everyday.

Great design is rarely achieved alone. We are proud to collaborate with renowned makers of luxury cabinet handles Crofts & Assinder to provide the finishing touches to our high-level cabinet work. Ever since the company was founded in 1875, the Birmingham-based manufacturer has specialised in fittings that are both beautifully made and stylish.

It is this coming together of style, function and attention to detail that sets the luxury furniture range at Heritage apart.

THE ESSENTIALS

# Mirror, mirror

Whether you're upgrading an existing bathroom or putting in a whole new suite, good lighting is essential – and by that we mean mirrors. Round or rectangular, our curved-edge mirrors will make a space feel bright and inviting. It's what you do with them that counts. A large mirror will trick the eye by enlarging a room.

Our range of LED mirrors are available in chrome, gold and black finishes and include features that prevent the mirror from misting when the hot shower is on. And with practicality in mind, they can also switch between cool or warm white light. For an extra stylish touch, our Amberley mirror is hung from a leather-look strap for that Scandinavian feel.

See page 134 for our full range.

# Product *selection*

Our definitive guide to choosing the right fittings and accessories to suit your space.

# Furniture

Heritage bathroom furniture is designed with style and practicality in mind.

From the classic Caversham, to the timeless design of Wilton, or the elegantly modern Lynton, all of our ranges give you beautiful bathroom storage you can enjoy for years to come with a robust five year guarantee.

Available in a range of on-trend finishes, you can also choose from a range of durable worktops and stylish handles to create a truly unique look.

# Furniture Options

Add character to your bathroom with our range of bathroom furniture. From freestanding units to wall hung options, we have a wide range of widths to choose from to create your perfect space. We also have cloakroom options for those smaller spaces.

# Sanitaryware

From timeless classics, Granley and Dorchester, alongside more modern options such as Stamford, or the elegant Hatton, explore the Heritage sanitaryware collection. We also offer beautifully crafted basins and a range of back-to-wall pans to fit our practical furniture pieces.

Whichever you choose you can rest assured that all our sanitaryware will give you style and quality that lasts, that's why we offer a robust guarantee.

# Basins

Suites include basin options suitable for all bathroom spaces. Choose by type or style and select from pedestals, furniture or a washstand to complete the look.

**Standard**

Suitable for most bathroom spaces.

**Medium**

Slightly smaller than a standard Basin. These are suitable for main bathrooms or an en suite where space may be at a premium.

**Square**

Choose traditional styling with an angular twist.

**Cloakroom**

As the name suggests, these compact options are designed to work in smaller spaces.

## Basin - Options

Range	Standard	Medium	Square	Cloakroom	Baby	Corner	Vessel
Berkhamsted							✓
Chiswick							✓
Dorchester	✓		✓	✓	✓	✓	
Granley	✓	✓		✓	✓		
Keymer							✓
Hatton	✓						
Redford							✓
Stamford	✓	✓					

**Baby**

A petite option for even the smallest cloakroom.

**Corner**

Make the most of awkward or angular spaces with a corner basin.

**Vessel**

Suitable for use with vanity units and a worktop

# WCs

Just like our beautiful basin options, all of our suites include WC options. We also offer a range of back-to-wall pans to complement our furniture ranges.

### High Level

Make a statement with a high level cistern and ornate chain pull. High level options also require a flush pack.

### Low Level

A stylish traditional option with a separate pan and cistern connected by a flush pack.

### Close Coupled

A popular option, close coupled keep the pan and cistern together.

## WC - Options

Range	High Level	Low Level	Close Coupled	Back-to-wall	Wall hung	Portrait	Comfort Height
Clinton				✓			
Dorchester	✓	✓	✓	✓	✓	✓	✓
Granley	✓	✓	✓	✓	✓		✓
Hatton			✓	✓			
Stamford			✓	✓	✓		

### Cistern Levers

Choose from a range of cistern levers, find them on page 73.

### Toilet Seats

Our toilet seats are available in range of colours, including options to match our furniture finishes, see page 72.

### Back-to-Wall

Ideal with furniture, a back-to-wall uses a concealed cistern.

### Wall Hung

Create a simple, elegant look with a pan that uses a cistern hidden in the wall.

## Dorchester WC's

### Close Coupled WC & Landscape Cistern

Standard Height WC	PDW00	£348

# Acrylic Baths

Our acrylic baths are durable, adaptable and stylish. With a lightweight but rigid construction they're hard-wearing but easy to manoeuvre.

Choose a freestanding acrylic bath in a range of shapes and styles, as well as options with a statement finishes like metallic effects, or marble.

Or, for more practical spaces like a family bathroom, where a shower and bath is needed in a limited space, a fitted acrylic bath can be the perfect solution.

# Taps & Showers

Our taps and showers are designed to sit beautifully in your bathroom.

Choose from our six tap ranges, each with matching shower options and market-leading guarantees.

Alternatively, opt for the indulgent Avenbury, a standalone statement shower (page 101).

You can also choose from five on-trend finishes:

### Chrome

A classic, elegant finish available on all our taps and showers.

### Vintage Gold

A gentle gold for an understated look.

### Brushed Nickel

A soft brushed finish, perfect for calming bathroom spaces.

### Brushed Brass

A rich and opulent on-trend finish.

### Matt Black

The perfect option for a sleek look, make a bold statement with a matching black shower.

## Caring for your products

### CLEANING CAST IRON BATHS

**DO'S**

Do be careful not to drop anything in the bath as the enamel could chip.  
Do rinse thoroughly with water and wipe down after each use.

**DON'TS**

Don't clean the outside with any chemicals that could remove the paint.  
Don't drop anything in the bath.

### CLEANING ACRYLIC BATHS

**DO'S**

Do wipe over with a damp cloth regularly.  
Do dry the area around the plughole.  
Do take extra care with special finish baths.

**DON'TS**

Don't use abrasive chemicals as it may scratch the gloss finish.

### CLEANING TAPS, SHOWERS AND WASHSTANDS

**DO'S**

If limescale needs to be removed, do use a solution of 50% water, 50% white vinegar.  
On special finishes do use a silver polish and tarnish guard for additional protection.

**DON'TS**

Don't use corrosive and abrasive cleaning products.  
Don't use bleach.

### CLEANING TOILET SEATS

**DO'S**

Do clean regularly as build-up of deposits may cause damage.

**DON'TS**

Don't use corrosive cleaning products.  
Don't use bleach.

### CLEANING SANITARYWARE

**DO'S**

Do regularly wipe down with a soft damp cloth.

**DON'TS**

Don't use any abrasive cleaning agents or materials such as bleach or scouring pads.

### FURNITURE CARE

**DO'S**

Do check the hinges and handles regularly to make sure they haven't become loose.  
Wherever possible wipe down standing water immediately.

**DON'TS**

Don't use any abrasive cleaning products.

### MIRROR CARE

**DO'S**

Do use a soft cloth and glass cleaner on the glass.  
Do use a dry soft cloth to remove dust from the frame.

**DON'TS**

Don't clean the mirror surface with anything abrasive.  
Don't use any cleaning products on the mirror surround.

### HEATED TOWEL RAIL CARE

**DO'S**

Do dust regularly.  
Do use a damp cloth.

**DON'TS**

Don't use abrasive or corrosive cleaning products as they may damage the paint finish.

### ACCESSORIES CARE

**DO'S**

Do avoid prolonged contact with water and dry after use.

**DON'TS**

Don't use abrasive or corrosive cleaning products.

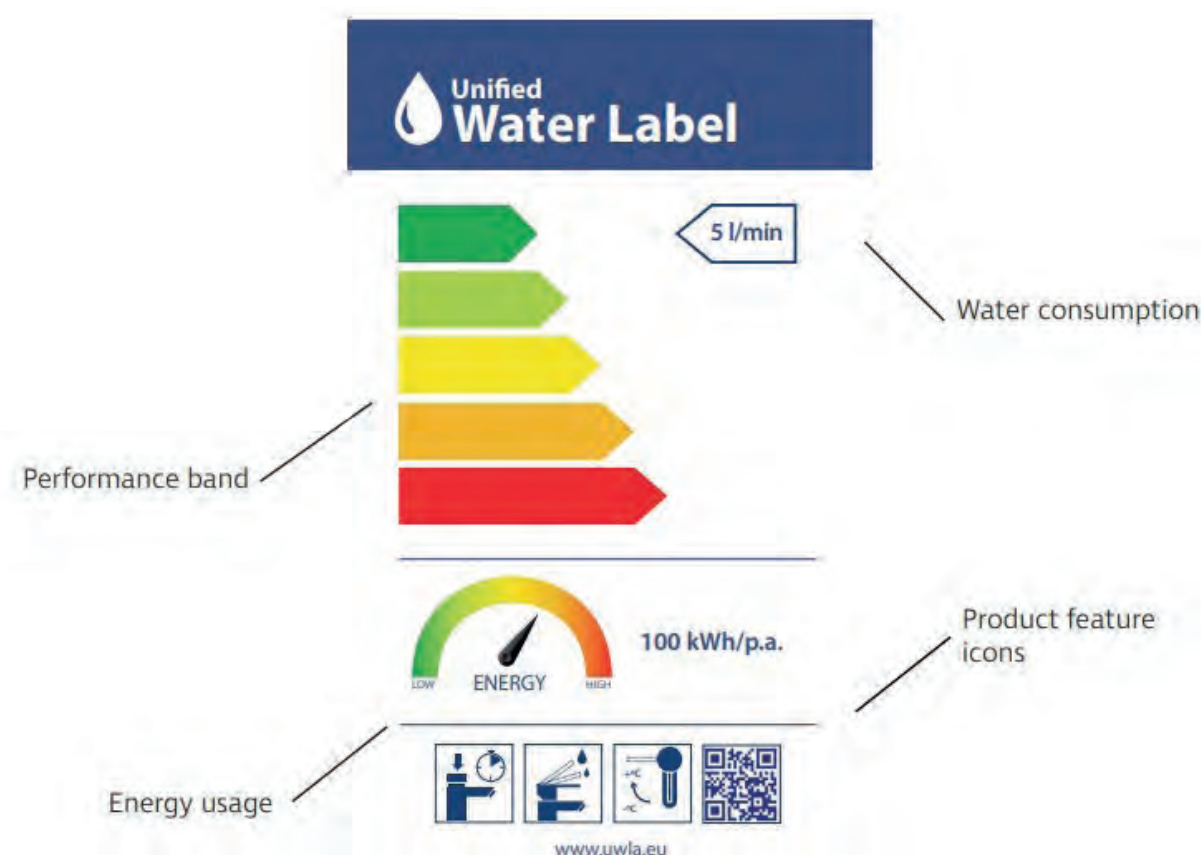

## Explaining Water Efficiency

There are over 60 million people living in the UK, using on average 150 litres of water per day for washing, cooking and drinking. Improvements in lifestyle and new technologies within the domestic environment mean we use 55% more water than we did 25 years ago, with half of this being used within the bathroom environment.

As climate change takes a greater hold on the environment we understand it is essential for us all to use water wisely. At Heritage Bathrooms we appreciate how important it is to save water and that's why we have designed selected products to optimise water usage in the bathroom.

You can now tell how much water a product uses in normal domestic conditions by looking for the Water Label. A green indicator flag shows that a product uses the least amount of water whereas a red flag indicates that a product uses more water; however this gives you a greater flow from your taps and showers for a faster filling basin or bath and more invigorating shower.

You can find a complete explanation of the European Water Label and how it works at: [www.europeanwaterlabel.eu](http://www.europeanwaterlabel.eu)

#### Taps & Showers Water Label guide

Litres per minute	6 Litres Max	8 Litres Max	10 Litres Max	13 Litres Max	Over 13 Litres
-------------------	--------------	--------------	---------------	---------------	----------------

#### Baths Water Label guide

Capacity to overflow	155 Litres Max	170 Litres Max	185 Litres Max	200 Litres Max	Over 200 Litres
----------------------	----------------	----------------	----------------	----------------	-----------------

#### WCs Water Label guide

Average flushing volume	3.5 Litres Max	4.5 Litres Max	5.5 Litres Max	6.0 Litres Max	Over 6.0 Litres
-------------------------	----------------	----------------	----------------	----------------	-----------------

All flow rates are given at 3.0bar water pressure

## Useful Information

### BATHS

#### Acrylic baths

Reflectivity of materials may vary, in some light conditions the white may look a little different.

Heritage bath panels are designed to go with Heritage baths, a 1700mm panel for a 1700mm bath etc.

#### Cast iron baths

Cast iron baths are still made in the traditional way which includes a degree of surface ripple, dimples and minuscule black specks in the interior. This is all part of the character of a cast iron bath giving a feeling of uniqueness in your bathroom.

The exterior of our cast iron baths come smooth and pre-primed ready to paint. This isn't the finished article though and may suffer minor wear and tear en route to you. It will be instantly restored when you paint it in your chosen colour.

### BASINS & WCs

Each piece of sanitaryware is individually made which means dimensions given are always 'approximate' within standard industry tolerances. If precise measurements are required then you must measure the actual pieces when they are delivered and plan your bathroom around them.

Every effort is made to ensure our sanitaryware is straight and level, and our standards are significantly higher than those set out in the current British Standards. However, when used on furniture, for example, there will be situations where an inexact basin will meet a perfectly straight worktop and sealant will need to be applied to fill any inconsistencies, ensuring a stable fit and sealing the furniture from water ingress.

Due to manufacturing processes slight colour variation is possible in ceramic items.

This brochure supersedes all previous issues of the Heritage Collection with effect from the issue date shown until replaced by a new edition. Heritage holds intellectual property rights, including but not limited to unregistered design right, copyright, registered designs and patents in the United Kingdom, and other similar rights elsewhere to all the goods that are proprietary to us and their drawings, designs and specifications. Along with our stockists we will establish, prosecute and defend those rights. All rights reserved. No part of this work may be reproduced, utilised or stored in any form or by any means without written permission from Heritage Bathrooms. E&OE. Prices correct at time of print. At Heritage Bathrooms it is our policy to strive to continuously improve the quality of our goods, as a result our products will also be subject to changes in design, materials, components and finishes. All goods are subject to such variations in size, colour and finish and are within normally accepted manufacturing tolerances. Also, as products are subject to changes this may affect the qualification for various product approvals and so we will not be held responsible for any reliance placed on approval references within drawings, descriptive matter, price

The lifetime guarantee on sanitaryware extends to the ceramic pieces only. The cistern fittings are guaranteed for 5 years.

The inlets on our ceramic cisterns vary depending on the product. Please contact our customer service team for more information.

### HERITAGE LOGO

The word Heritage is used as a hallmark to denote a genuine Heritage product.

### TAPS & SHOWER VALVES

Heritage taps are designed to be compatible with Heritage sanitaryware and baths. A 1 tap hole basin mixer will be suitable for any 1 tap hole basin, the few exceptions to this rule will be highlighted in the directory section.

The majority of Heritage taps and shower valves have been engineered to operate on low pressure making them compatible with all UK plumbing systems. The minimum operating pressure for each tap and shower valve is stated in the directory for you to confirm compatibility with your installer.

#### Measuring tap spout projections

Spout projection measurements refer to the dimension from the centre of the body to the centre of the spout.

### BRASSWARE FINISHES

Chrome is an extremely durable plated finish which is applied to a variety of fittings in a consistent manner and features a 10 year guarantee. Special finishes, such as Vintage Gold are more delicate so when applied to high use fittings such as taps and showers, or a plated finish we use on shower kits, hoses and accessories, feature a 3 year guarantee only.

Close inspection may show some colour variation which is normally acceptable given the relative distance between individual fittings when installed.

lists, catalogues, brochures, websites, and other promotional material unless it has been directly confirmed by us in writing at the time the products are ordered.

#### Trade Mark and Data Protection

Our trade mark HERITAGE is registered in the United Kingdom and throughout Europe. You will not use our trade mark, or any of the range or product names or images of our products without approval.

**Heritage Bathrooms** is a member of the Bathroom Manufacturer's Association [www.bathroom-association.org](http://www.bathroom-association.org). ®Registered trademark of Heritage Bathrooms. Part of Bristan Group Limited. A MASCO company. [www.masco.com](http://www.masco.com)

#### European Water Label Scheme

Products within the Heritage range are accredited by the European Water Label Scheme therefore meeting industry standards for water efficiency. For a full list of accredited Heritage products and for more information please visit [www.europeanwaterlabel.eu](http://www.europeanwaterlabel.eu)

## Useful Information & Guarantees

### FURNITURE

**Our freestanding furniture** is produced using painted Beech wood, MDF and MFC.

**WC seats** and hinges must be regularly maintained and correctly cleaned using non-corrosive or abrasive cleaning products.

**Worktops** are supplied in varying lengths. Please measure and select carefully. Please also take care when cutting worktops; worktops are not made from solid wood and by cutting them you will expose the edge.

**Wall mounted furniture** in our range is not freestanding and is designed to be wall-mounted.

#### HERITAGE BATHROOMS GUARANTEES

At Heritage Bathrooms, we want to make things as easy as possible for our customers. That's why we design products that are easy to fit and use, and that are quality tested to make sure they won't let you down.

It's also why we offer solid guarantees, effective from the date of purchase, so that in the unlikely event of something going wrong, you have the peace of mind that the problem will be sorted easily.
