Important Safety Information

Warning: Before starting any installation please consider the following: Prior to drilling into walls or floors, check that there are no hidden electrical wires, cables or water supply pipes. This can be checked with the aid of an electronic detector.

- If power tools are used do not forget to:
- Wear eye protection
 - Unplug equipment after use

If you are unsure at all regarding the installation of this product, you should consult a competent person with experience of installing products of this nature.

The accuracy and levelness of these product may depend on the floor and walls being level and perpendicular to each other, if not then a spirit level can be used during the installation to get an accurate alignment.

Installation

1

Offer the mirror up to the desired position. Measure the distance between the holes on the mirror.

2

Mark the holes with a pencil and spirit level using the measurement taken.

3

Drill the holes to the required size of the wall plugs. Insert the wall plugs into the holes. This is based on the supplied fixings being suitable for the wall. If not, obtain suitable fixings.

4

Mount the mirror using the spacers and screws supplied (if applicable to the wall. **DO NOT OVERTIGHTEN OR YOU RISK BREAKING THE MIRROR.** Check the mirror for security.

Installation

Single backplate fitting mirror:

1. Establish position for the accessory, making sure there is sufficient room.
2. Items must always be measured prior to fitting, as there will be slight variations in production runs.
3. Drill holes with a 5.5mm masonry drill & insert the wall plugs so that they are flush with the wall.
Note the wall plugs provided are suitable for solid walls only. If using on plasterboard or hollow walls, specialist fixings are required, these can be obtained from a DIY outlet.

Aftercare

Your fitting has a high quality finish and should be treated with care to preserve the visible surfaces.

All surface finishes will wear if not cleaned correctly, the only safe way to clean your product, is to wipe with a soft damp cloth. Stains can be removed using washing up liquid. All bath cleaning powders and liquids can damage the surface of your fitting even the non-scratch cleaners.
