### Installation Guide

Models covered:

**Bath/Shower Screen**

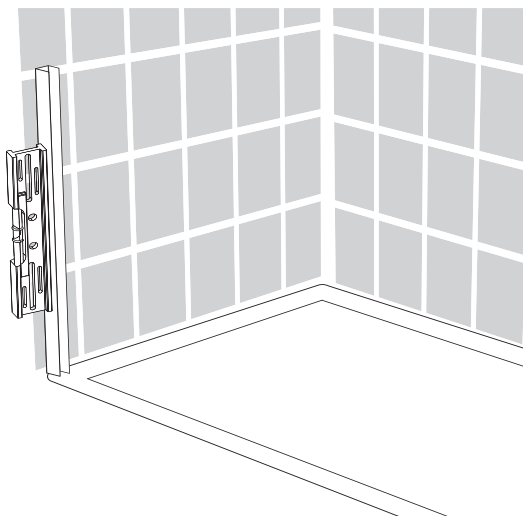

Please keep this booklet for future reference.

Installer: When you have read these instructions, please ensure you leave them with the user.

# Installation

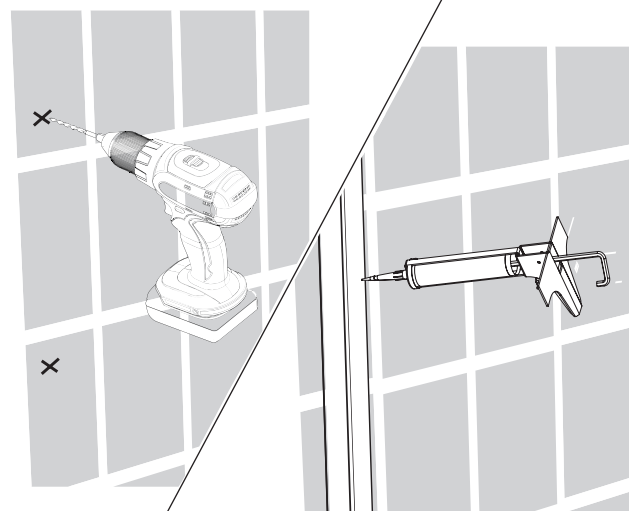

1

Using a spirit level against the wall bracket, mark the 3 pre-drilled holes on the wall using a pencil.

Using a suitable drill bit for the wall type, drill holes based on the wall fixings you intend to use (masonry wall plugs and screws included).

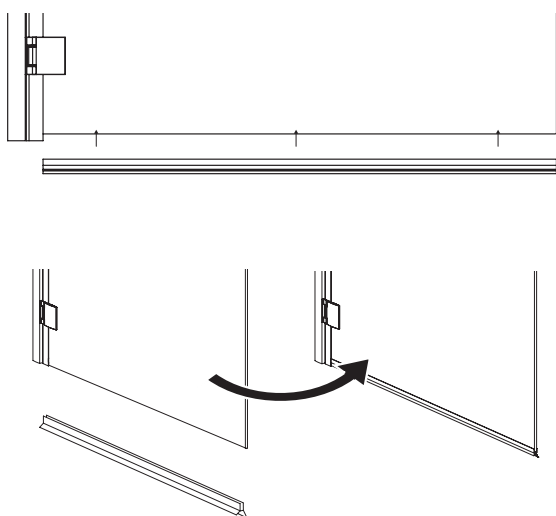

3

Secure the wall bracket and run a bead of silicon on the shower side of the fitting.

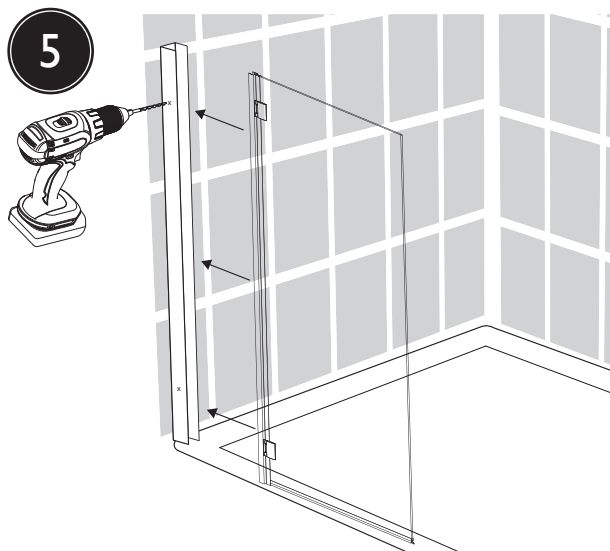

2

4

The screen can be orientated to open either way. The screen must open outwards from the bath. Once the bottom of the screen is determined, fit the sealing strip.

5

Fit the shower panel to the wall bracket so that the sealing strip on the base rests enough to create a seal but light enough to move. Using the drill bit provided drill two holes. Place the provided cover housing over the holes and secure using screws provided. Use the provided caps to hide the screw heads.

---

## Caring for your product

---

Your fitting has a high quality finish and should be treated with care to preserve the surface.

- All surface finishes will wear if not cleaned correctly.
- The only safe way to clean your product is to wipe with a soft damp cloth. Any stains can be removed using washing up liquid.
- Do not use cleaning powders or liquids.
- Even non-scratch cleaners may damage the surface of your fitting.

---

## Guarantee

---

The confidence we have in the quality of our products and services enables us to offer a free peace-of-mind product guarantee from 2 years up to a lifetime guarantee against any manufacturing faults, with proof of purchase. In addition, our attentive customer service team are available to help solve any problems which may arise quickly and effectively so you can enjoy your bathroom.
